

Drive AI transformation in your organization

Courses Code: AB-731T00

Duration: 1 Day

Delivery Mode: Instructor-led Training (ILT) | Virtual Instructor led Training (VILT)

Overview

In this course, learners will explore how to lead AI transformation across their organization. They'll learn practical strategies to identify high-impact AI opportunities, align investments with business goals, and champion responsible AI practices. The course emphasizes real-world applications and strategic decision-making—no technical expertise required—making it ideal for senior leaders who want to confidently drive AI adoption and innovation.

Skills Covered

- Explore how to lead AI transformation across their organization.
- Learn practical strategies to identify high-impact AI opportunities.
- Understand how to align investments with business goals.
- Champion responsible AI practices in decision-making and implementation.
- Focus on real-world applications and strategic decisions that support AI adoption and innovation.

Who Should Attend

This course is designed for business leaders, including directors, VPs, and executives across marketing, sales, operations, HR, finance, and strategy. It's also suitable for aspiring leaders who want to understand how to adopt and scale AI responsibly. Learners will gain practical knowledge and tools to plan, strategize, and implement AI initiatives using Microsoft technologies.

Prerequisites

- A basic understanding of business context and organizational strategy.
- Familiarity with Microsoft 365 services and Azure AI services is useful for engagement with course topics and the related AI Transformation Leader certification.

Course Modules

Module 1. Explore the business value of generative AI solutions

Discover how generative AI can reshape decision-making and deliver measurable impact across your organization. This learning path equips business leaders to identify high-value opportunities, assess readiness, and implement responsible AI solutions that drive real results. Gain practical strategies to foster innovation, improve efficiency, and create sustainable business value.

Module 2. Drive business value with AI solutions

Discover how Copilot and Microsoft Foundry can transform work across your organization. This learning path helps business leaders align AI with goals, automate tasks, and adopt secure, responsible solutions. Explore licensing, extensibility, and practical strategies to maximize impact.

Module 3. Transform your business with AI

In this learning path, business leaders will find the knowledge and resources to adopt AI in their organizations. It explores planning, strategizing, and scaling AI projects in a responsible way.
