# TVOCREM: Trend Vision One™ - Cyber Risk Exposure Management (CREM) Professional

Courses Code: TVOCREM
Duration: 3 days
Instructor-led Training (ILT) | Virtual Instructor-led Training (VILT)

## Courses Overview

Trend Vision One™ - Cyber Risk Exposure Management (CREM) Professional

Cyber Risk Exposure Management (CREM) is a proactive approach to cybersecurity that focuses on continuously identifying, assessing, and mitigating vulnerabilities across this entire surface.
This instructor-led course equips you with the necessary skills to become a certified expert in Trend Vision One's Cyber Risk Exposure Management (CREM) platform. You will understand the CREM principles and methodologies through a combination of lectures, discussions, and hands-on labs.

## Skills Covered

- Explain the core principles and benefits of CREM and articulate its role in a comprehensive security strategy.
- Navigate the Executive Dashboard to gain a high-level overview of organizational risk posture and identify critical areas for improvement.
- Utilize Trend Vision One to perform attack surface discovery, identifying and classifying assets across on-premises, cloud, and hybrid environments.
- Effectively utilize the Operations Dashboard to monitor security events, analyze threats, and respond to incidents in real-time.
- Assess and improve cloud security posture by identifying misconfigurations and implementing best practices.
- Integrate CREM data into security awareness training to empower employees and reduce human error-related risks.

## Who Should Attend?
